#### Formative Assessment

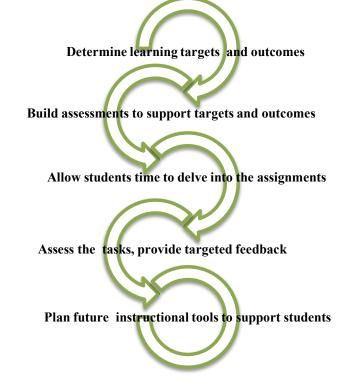

# Principle #3

Formative assessment (for learning) must be ongoing, varied, and central to the instructionallearning cycle.

"If summative assessment can be described as a digital snapshot, formative assessment is like streaming video. One is a picture of what a student knows that is captured in a single moment of time, and the other is a moving picture that demonstrates active student thinking and reasoning". (Van de Walle, Lovin, Karp & Bay-Williams, 2006)

Assessment for learning (formative assessment), designed to improve learning and achievement, occurs throughout the instructional cycle. It does not involve grades and scores for assignments and tasks but instead turns assessments into learning events. Formative assessment provides opportunities for students to clarify their understanding prior to grading or scoring while not impacting final grades or scores.

The focus of formative assessment is to provide students targeted feedback, during the unit of study, to guide students with the next step of their learning. To assess where students are, what they still need and where they need to go in their learning, requires multiple and varied assessments throughout the unit.

Assessment for learning is "designed to give teachers information to modify and differentiate teaching and learning activities. It requires careful design on the part of teachers so that they use the resulting information not only to determine what students know, but also to gain insights into how, when, and whether students apply what they know. Teachers can also use this information to streamline and target instruction and resources and to provide feedback to students to help them advance their learning". (Western and Northern Canadian Protocol for Collaboration in Education (WNCP), 2006, pp.13–14).

#### Formative Assessment

## **TRY THIS:**

- Use a variety of pre-assessments tools such as:
  - *Webbing* <u>http://literacy44.ca/wp-content/uploads/2015/10/P\_Webbing-1.pdf</u> OR <u>http://literacy44.ca/wp-content/uploads/2015/10/P\_Webbing-2.pdf</u> OR <u>http://literacy44.ca/wp-content/uploads/2015/10/S\_R\_Semantic-Mapping-Webbing.pdf</u>
  - *Know-Wonder-Learn* (<u>http://literacy44.ca/wp-content/uploads/2015/10/P\_Know-Wonder-Learn.pdf</u>)
  - Pre-assessments /anticipation guides
  - Know-Learned-Still Wonder <u>http://literacy44.ca/wp-</u> content/uploads/2015/10/S R Know-Learned-Still-Wonder.pdf
- Conference with students about their learning and plan the next steps together.
- Provide rubrics to students to enable them to see where they need to be.
- Use quick formative assessment to check for understanding:
  - Traffic Light
  - Thumbs up, Thumbs down
  - Exit slips
  - Use models or exemplars
  - See:

http://www.assessmentforlearning.edu.au/professional\_learning/peer\_feedback/peer\_st rategies\_enhance.html for more descriptions and examples.

- Use Visible Thinking Routines
  - Making Thinking Visible by Ron Ritchhart
  - o http://www.visiblethinkingpz.org/VisibleThinking html files/VisibleThinking1.html
- Provide clear, descriptive, honest and supportive feedback focus specifically on learning.
- Use digital tools:
  - *Plickers* (<u>https://www.plickers.com</u>)
  - *Padlet* ( <u>https://padlet.com/</u>)
